

IN THE DRAWINGS

1. Please replace original Figure 2(a) with the enclosed replacement sheet (Figure 2(a); sheet 2 / 16).
2. Please replace original Figure 3 with the enclosed replacement sheet (Figure 3; sheet 4 / 16).
3. Please replace original Figure 5 with the enclosed replacement sheets (Figure 5; sheets 6 / 16 through 12 / 16).

## REMARKS

This paper is filed in response to the Notice to file corrected application papers mailed July 21, 2009.

Enclosed herewith are new drawing: Figure 2(a) (sheet 2 / 16) Figure 3 (sheet 4 / 16), and Figure 5 (sheets 6 / 16 through 12 / 16). Amendment of the application to delete Figs. 2(a), 3, and 5 originally submitted and to replace them with the enclosed Figs. 2(a), 3, and 5 is requested. No new matter is presented.

Figure 2(a) has been amended to complete the legend along the y-axis. Specifically, in Figure 2(a) as-filed, the word "colonies" in the y-axis legend "% of Surviving colonies" was partially obstructed. Applicants have corrected the error in the attached replacement Figure 2(a). Support for the amendment is apparent from the original Figure 2(a) and further view of Figure 2(b), which also contained the y-axis legend "% of Surviving Colonies". Further support can be found in the specification in the Brief Description of the Drawings on page 20, third full paragraph:

"Figure 2 illustrates the irreversible effect of compound A37 on clongeneic survival of HCT-116 tumor cells, as represented by (a) dose response; and (b) time-course."

The replacement drawings are believed to overcome the informalities cited by the Examiner, *i.e.*, to complete the legend along the y-axis of Figure 2(a), and to provide an electronically reproducible copy of Figures 3 and 5. If any other drawings changes are necessary, the Examiner is requested to contact the undersigned attorneys of record.

Entry of the replacement drawings is respectfully solicited.

Respectfully submitted,

Leon R. Yankwich, Registration No. 30,237
